Mateusz Gryc

Senior Software Developer

I am a software developer with over eight years of experience. Skilled in creating web applications using HTML, CSS, JavaScript and TypeScript. As a hobbyist Flutter programmer, I create and publish mobile apps.

In love with learning, self improvement and knowledge sharing. According to my colleagues' feedback, I am also a good mentor and friend.

WORK EXPERIENCE

j-labs software specialists | Angular Developer 2024 - 2025

As a part of multiple teams, we were rewriting legacy AS400 application in modern techstack (Angular 15 on front-end side) for the largest logistic company in Europe.

- planning app architecture
- preparing development environments
- code reviewing
- managing Angular development

Capco | Front-end Developer 2023

- For Canada-based bank, as a short-term contractor, me and the team were working on front-end architecture for internal app.

BinaryMinds | Flutter Developer 2021 - 2022

- Prototype of podcast app for German stand-uper Mario Barth, deployed for iOS and Android with full native integration (media controls, notifications).

BinaryMinds | Angular Developer 2020 - Present

My projects included:

- resume generator for US client with Angular and Angular Material.
- rewrote AS400 stores management system as a web application with Angular and Angular Material. Project required API integration with hardware like scanners, scales and delivery systems.
- rewrote Adobe AIR application in Angular 13 for health-oriented US client.
- I was promoted to team leader, mentored team of mid and junior developers

BinaryMinds | Front-end Developer 2019 - 2020

- Rewrote legacy warehouse application with Angular 13.
- Maintain huge lazy-loaded database accessed via REST API.

Binary Minds | Full-stack Developer 2017 - 2019

- Rewrote legacy resume generator from a ColdFusion to web application with Angular 13. Implemented web storage system, autosave, and mailing system.
